Art Unit: 2157

1. This action is responsive to the application filed on January 19, 2001. Claims 1-63 are pending.

***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CAR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, 23-34, and 43-63, Network Resource Allocating in class 709, subclass 226.

Group II, claim(s) 12-18, operator interface wherein the explanation or list is organized in a pyramidal manner in which each item is linked to items directly beneath it. classified in class 715, subclass 713.

Group III, claim(s) 19-22, and 35-40, operator interface wherein a user has interactive access to distributed information or functions made available through a certain given user site classified in class 715, subclass 738.

The inventions are distinct, each from the other because of the following reasons:

Inventions I -III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as comprising means or steps for apportioning resources to one or more computers on a

network. Inventions II and III are directed toward user graphical interface hierarchical and interactive access to distributed information. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Geoff L. Sutcliffe (Registration No. 36,348) on March 4, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

A shortened statutory period for response to this action is set to expire **0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
